

## Your guide to Medical Marijuana

### Medical Marijuana - Helpful information:

- All patients are registered with the Department of Health's Office of Medical Marijuana Use (OMMU)
- Updates and information are available on the OMMU's site at: <http://www.floridahealth.gov/programs-and-services/office-of-medical-marijuana-use/index.html>
- Medical Marijuana is NOT a prescription it is simply a recommendation, you will hear the word recommendation a lot. While you will be given a suggestion as to what to use to best treat your symptoms you are encouraged to try different products and find out what works best for you.
- Medical Marijuana is referred to as medicine, product, marijuana or cannabis.
- If you are not familiar with Medical Marijuana, Dr. Hashim has provided his patients with a dosing guide found on his website: [www.theherbalclinicmd.com](http://www.theherbalclinicmd.com)
- Your medicine is purchased from a dispensary. There are many throughout the state and they all offer delivery, so they will bring it to you.
- You are the only one that can purchase your medicine unless someone has power of attorney over you then they can apply for a Caregiver Card. If this is something you would like to set up please contact our office to have their information added to your profile.
- Dispensaries are cash only or "Can Pay" which is a preloaded debit card.
- Your medicine can NOT leave the state of Florida.
- Your card may or may not be valid in another state, it depends on that particular states rules and regulations. You can typically find this information on the Department of Health's website for that state.
- For all other rules and regulations here in Florida please see the OMMU's website: <http://www.floridahealth.gov/programs-and-services/office-of-medical-marijuana-use/rules-and-regulations/index.html>
- Follow-ups are scheduled around your order expiration date. If for any reason you need to reschedule please keep that in mind.
- Your Medical Card is good for 1 year - Renewal instructions are below.
- Orders are placed in the registry by Dr. Hashim. However, this is only in a category form. For example - Oral, Inhalation, and Topical for both low-THC (CBD) and High-THC (THC) - When calling a dispensary you will need to tell them what products you want to purchase.

- Orders are good for 70 days - Once you have passed your 10-week follow-up you will have to come in every 210 days/ per state law. Dr. Hashim will place an order in the registry for 70 days and then 2 more scheduled to open when the other closes.
